

COMPANY PROFILE

For more than two decades Exeo has successfully undertaken a variety of civil engineering construction projects. Most projects undertaken is in the traditional manner, but Exeo has the expertise and technical backup to provide turnkey solutions in fields such as, concrete works and specialized construction, as well as residential and industrial developments.

The company, Exeo Construction (Pty) Ltd was established in July 1995 by Wilhelm Meyer and Mike Peter. In line with the government's policy of Broad Based Black Economic Empowerment, Exeo Construction joined forces with Khokela Construction in 2004 to form Exeo Khokela Civil Engineering Construction (Pty) Ltd. Before the merger, the two companies completed several projects in Joint Venture. The new Exeo acquired all assets and liabilities, as well as all the staff, from both Exeo Construction and Khokela Construction.

Exeo is registered with the Construction Industry Development Board (CIDB), registration number 110440 and the grade of registration can be verified on the CIDB website.

The company also has a current BBBEE scorecard which can be viewed at www.exeo.co.za

In addition Exeo is listed as an approved supplier on various client databases. Amongst other on Trade World, City of Cape Town, Bergrivier Municipality, Drakenstein Municipality, Stellenbosch Municipality and the Parliament of South Africa.

Exeo strives to deliver professional service and quality construction, coupled with direct access to directors and senior staff members at all times.
